

MOBİLYA & TASARIM

## Bespoke Masterpieces

Our work moves between technique and art, between craftsmanship and engineering.

We are always searching for new solutions, roads not yet travelled, engineering strategies which make design and artistic beauty accessible to all.

Ideas with which to build what - simply - has not yet been invented.

From the  
**Inspirational city**

From Istanbul; Mobilya & Tasarım was born with a unique emotional impression. Since late '80s we were privileged to work with the pioneers of the industry; Architects, Interior and Furniture Designers to the home owners. We give back beautiful pieces, each one is absolutely unique, fulfilled the required moods, tastes and reflected the dream to a Bespoke masterpiece.

## Passion for Craftsmanship

Every single element may require detailed machining or manual operations: inlaying to crown moulding, shaping to thermoforming, painting and application of resins on any surface to the plating and welding of metals. We are continue tailoring our exclusive production strongly believing that research, field testing working with passion are the key factors that truly inspire our know-how.

## Shape & Finish

Having endless freedom of choice in terms of fabrics, leather, woods, colours and finishes to choose among, resulting tailored beautiful pieces fulfilling individual taste and dreams.

Starting from there, any order will be customized specifically for you, from detailed drawings to samples until reaching the final product.
